11.2. Fair value of financial instruments

Some of the Company's financial assets and liabilities are measured at fair value at the end of each reporting period.

The table below analyses fair value measurements for financial assets and financial liabilities categorised into three level hierarchy:

- level 1 fair value based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- level 2 fair value based on inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly;
- level 3 fair value based on unobservable inputs for the asset or liability.

	Level 2	Level 2	
Assets			
Hedging derivatives (CCIRS/IRS)	41	147	
Other derivatives	46	-

Hedging derivatives (CCIRS)	31	-	

Cross Currency Interest Rate Swaps (CCIRSs) and Interest Rate Swaps (IRSs) are measured at fair value by discounting future cash flows. The interest rates and the basis spread used in discounting are obtained from Bloomberg.

Other derivatives include options to purchase shares in Polimex-Mostostal SA. The options were purchased from Towarzystwo Finansowe Silesia Sp. z o.o. under the agreement of 18 January 2017 and refer to the purchase, in three tranches, a total of 9 million shares of Polimex-Mostostal SA, at the nominal price of PLN 2 per share. The option exercise dates were set at: 30 July 2020, 30 July 2021 and 30 July 2022. The fair value measurement of the call options to purchase shares of Polimex-Mostostal SA was carried out using the Black-Scholes model. The measurement considered the current price and historic volatility of the company's share prices. The risk-free rate was determined on the basis of the yield of treasury bonds with maturities similar to the option expiration date.

11.3. Fair value of financial instruments not measured at fair value on an ongoing basis

Except for the information given in the table below, the carrying amounts of financial assets and liabilities do not depart in a material way from their fair values.

As at 30 June 2017 (unaudited)	2,973	3,089
As at 31 December 2016	2,227	2,361

11.6 Cash flow hedge accounting

The special purpose vehicle ENERGA Finance AB (publ) and ENERGA SA have signed three loan agreements denominated in EUR for the total amount of EUR 699 m. In order to hedge currency risk under these loans, in 2013, in July 2014 and April 2017, the Company concluded cross-currency interest rate swap transactions with nominal values of EUR 400 m ("CCIRS I"), EUR 25 m ("CCIRS II") and EUR 200 m ("CCIRS III"), respectively.

As a hedged position under the above hedging relationships the Company designated the foreign currency risk arising from intra-group loans denominated in EUR. The foreign currency risk is hedged at the level of 89% of the total nominal amount of loans.

As the hedge the Company designated CCIRS transactions under which the Company receives fixed-rate cash flows in EUR and pays fixed-rate cash flows in PLN. Cash flows received by the Company correspond with the cash flows under the intragroup loans. The Company expects that the hedged cash flows will continue until June 2027.

In January 2016, the Company concluded interest rate swap transactions to hedge the interest rate risk arising from the financing used under (see note 11.5):

- Ioan agreement concluded with EIB in 2013 PLN 200 m;
- Ioan agreement concluded with EBRD in 2010 PLN 200 m.

In August 2016, the Company additionally concluded IRS transactions with similar characteristics for the following:

- loan agreement concluded with EBRD in 2010 PLN 150 m;
- loan agreement concluded with EBRD in 2013 PLN 150 m;
- Ioan agreement concluded with EIB in 2013 PLN 150 m.

As hedged positions under hedging relationships, the Company designated the risk related to the WIBOR 3M interest rate arising from interest payments on the financial liabilities stated above in the period no longer than 2 years from the date of the hedging transactions. In the case of the PLN 150 m transaction pertaining to the 2013 EIB loan agreement, this is a four-year period.

As the hedge the Company designated the IRS transactions under which the Company receives floating-rate cash flows in PLN and pays fixed-rate cash flows in PLN. Interest cash flows received by the Company correspond with interest cash flows under the hedged financial liabilities. The Company expects that the hedged cash flows will continue until June 2020 and not longer.

The fair value of hedging is as follows:
--
